

# Populating EOSC-Life: Success stories from the Demonstrators

## Seminar 1

13.01.2021, 1 pm - 3:30 pm CET

Host: Jose Maria Carazo

### Speaker: Demonstrator 1

European Open Science Cloud resources for Chemical Biology and Structure Based Drug Discovery workflows

### Speaker: Carlos Oscar Sorzano

Fairification of Cryo-Electron Microscopy workflows and data acquisition

### Speaker: Sara Zullino

XNAT-PIC: expanding XNAT for image archiving and processing to Preclinical Imaging Centers

### Speaker: Beatriz Serrano-Solano

Re-using published microscopy images to study nucleolus biology

*Register for this meeting:*

## Seminar 2

19.01.2021, 2 pm - 4:30 pm CET

Host: Helen Parkinson

### Speaker: Demonstrator 3

Rapid, scalable and reproducible deployment of (meta) genomics assembly and analysis pipelines tailored to the biome of interest

### Speaker: Demonstrator 4

Marine Eukaryote Genomics Portal – access to tools and data-flows for marine genome annotation

### Speaker: Salvador Capella

Accessing human sensitive data from analytical workflows available to everyone in EOSC-Life

### Speaker: Demonstrator 8

Plant A+: Taking Plant Omics Data through Annotation, Acquisition and Analysis to Application
